GeoPal
Data-Driven Field Operations Management

Industrial Support Services

By transforming our clients' workforce productivity and project profitability we have established ourselves as the fastest growing mobility solution for Industrial Support Services companies worldwide.

Transformational operational efficiencies are achieved through the real-time reports and data insights that GeoPal delivers.

- We create powerful mobile workforce applications
- We integrate them with your existing IT systems
- And we deliver beautiful real-time KPI reports
- GeoPal is simple to use and fast to deploy

Track Job Progress and Project Profitability

- Capture day works and measured works on the mobile app.
- Enter details of work completed and forecast of work remaining.
- Field data is presented on actionable executive dashboards.
- Management can act immediately to ensure projects remain profitable.

Ensure Health and Safety Compliance

- The health and safety of your field workforce is of paramount importance.
- Use the GeoPal mobile app to enforce health and safety compliance.
- Use GeoPal for PPE compliance checks, site inspections, equipment inspections, vehicle inspections, scaffolding inspections and so on.

Benefits of GeoPal – Increase Profitability by 25%

↑**20%** **Increased Utilization**

Workforce utilization rates - billable time as percentage of total shift time - increased from 70% to 90%+.

↑**25%** **Increased Profitability**

Overall project profitability increased by 25% by giving management the data insights they need to eliminate waste.

↓**50%** **Reduced Administration**

Admin costs reduced by 50% by eliminating all paper forms and process and replacing with mobile data capture.

↓**40%** **Reduced Billing Cycle**

Book-to-bill window reduced from 6 weeks to instant billing with real-time progress reports for each project / contract.

With GeoPal we are getting a massive edge over our competition, they can't manage to the level of granularity that we can. For us GeoPal is all about tracking our profitability.
